Cube. Excellent.

Feel free to touch. CUBE exudes true craftsmanship.

Laying the floor is simplicity itself thanks to the tongue & groove profile. And this is the only bit with CUBE that is actually level. That, of course, is the whole point of it. This natural wood panel forms part of the Admonter ELEMENTs range, and its appeal comes from its multi-dimensional nature.

Totally enchanting. Walls, ceilings, furniture and objects all automatically gain that extra charm factor from CUBE. Our range comprises nine different designs. CUBE comes in Larch, Larch dark, Oak, Oak medium, Stone Pine, Stone Pine white and American Walnut. There are two additional special options made from sunbaked reclaimed wood and reclaimed alder. Each of these separate products has a grain pattern, a finish and a format that suits it perfectly.
